Pink "Strength" Cases

Make the Grade

"I love the case for so many reasons," she said. "It feels nice in my hand; the belt clip is amazing...I dare say this is the greatest thing since sliced bread!"

-Alice Keeler, Fresno, CA

Alice Keeler loves her pink OtterBox "Strength" case for the iPhone™ 3G and she's not afraid to say it. "I love the case for so many reasons," she said. "It feels nice in my hand; the belt clip is amazing...I dare say this is the greatest thing since sliced bread!"

As a mom of three little ones, high school math teacher and technology coach, Keeler leads an active lifestyle that often puts her iPhone in jeopardy, but with the OtterBox case on she knows her phone is protected. "The complete encapsulation of my favorite possession is the main selling point," Keeler said. "I also love that it's pink. It certainly stands out and I get a lot of attention for it."

OtterBox pink "Strength" Defender Series™ cases are trendy and support a great cause. For each case sold, 10 percent of the purchase price is donated to the *Avon Breast Cancer Crusade* to support access to care and finding a cure for breast cancer, with a focus on the medically underserved. Also available for the iPod® nano 3rd and 4th generation and for the original iPhone; these cases are the perfect accessory for style and protection.

Keeler had an OtterBox Defender Series case for her original iPhone and when she upgraded to the iPhone 3G, she couldn't wait to get the new pink OtterBox case for it. After comparing other cases that offered limited protection, Keeler chose OtterBox. "Nothing would have given me the multitude of features that the OtterBox case offers," she said.

One of her favorite features is the swivel belt clip that converts to a display stand when the device is inserted screen out. "I have my phone propped up next to my computer so I can easily see what music I am playing, who is calling me or, if I am watching a show, I don't have to try to prop the phone against something that isn't flat."

The case has saved Keeler hundreds of dollars by protecting her device and she has recommended OtterBox to several friends who have since purchased cases for their own devices. She has nothing but great things to say about the OtterBox, all of which can be summed up by one simple statement: "This case is amazing!"

About OtterBox:

Founded in 1996, OtterBox is highly respected in the design and production of rugged and semi-rugged cases to safeguard technology and other valuables.

Built upon fundamentals of hard work, creativity and perseverance, OtterBox is the innovator of premier protective solutions for leading global handheld manufacturers, wireless carriers and distributors.
